

# BUYING GUIDE

## Equip your FCS kitchen

Outfitting a new kitchen lab or updating an existing classroom but aren't sure where to start? Use this buying guide to help identify exactly what you need, from color-coded equipment to consumables to culinary and catering supplies. Once you've given students the tools and proper instruction, they'll be ready to get hands-on and develop kitchen skills that will serve them for life.

### Basic essentials and storage

Your students look to you to demonstrate every new skill they acquire. A mobile demo table with an adjustable mirror allows you to model proper techniques for students in every corner of your kitchen lab.

Once you've got a station, equip it with all the kitchen supplies you need to demonstrate skills, as well as the storage containers you need to store ingredients and food between lab days.

## Culinary and catering supplies

The restaurant industry currently employs over 14 million people with projections for more than 2.3 million jobs added by 2030\*. To help students looking to build career skills before entering the culinary field, you just need to add a few basic supplies to your standard kitchen lab to round out their learning experience.
